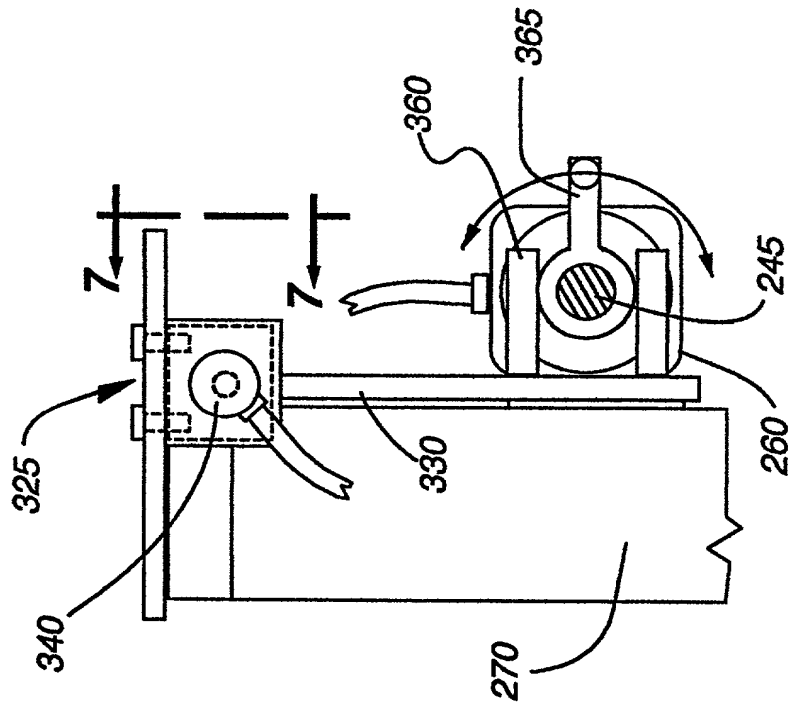

Fig. 6

Fig. 9 is a perspective view of the mechanical assembly 240 in a retracted position. The assembly includes a base 270, a vertical support 275, and a horizontal arm 250. The arm 250 is pivoted at one end to the base 270 and has a handle 255 at the other end. A cable 253 is connected to the handle 255 and passes over a pulley 256. The cable 253 is then connected to a component 258. The assembly is shown in a retracted position, with the handle 255 and cable 253 positioned near the base 270. The base 270 includes a mounting bracket 280 and a support structure 290. The vertical support 275 is connected to the base 270 and the horizontal arm 250. The horizontal arm 250 is shown in a retracted position, with the handle 255 and cable 253 positioned near the base 270. The assembly is shown in a retracted position, with the handle 255 and cable 253 positioned near the base 270.
